

CSV MAMER

OP DE PUNKT.

October 2026

DEAR RESIDENTS,

Mamer, Capellen and Holzem have continued to develop over the past few years in order to meet the needs of a modern municipality.

For the CSV, one principle is clear: **every resident should feel at home in our municipality:**

- our youngest residents should be free to grow and thrive, at school, at the Maison Relais or on our playgrounds;
- working people and parents should receive support in their everyday lives;
- older residents should be able to remain active and involved in community life for as long and as fully as possible.

That is why we have decided, planned and delivered important projects: new school and childcare facilities, modern spaces for sport and culture, attractive events and places that bring people together.

Together with our coalition partner, the LSAP, we take responsibility and provide concrete answers to the challenges of the future.

On these pages, you will discover some of the projects that have become a reality in recent years.

JEAN BEISSEL &
RAOUL METTENHOVEN
Presidents of CSV Mamer

PROJECTS THAT ARE CHANGING OUR MUNICIPALITY

MAISON RELAIS III.
MORE SPACE FOR CHILDREN.
MORE OPPORTUNITIES.

Another Maison Relais on the Kinneksbond campus. 219 childcare places. Plenty of space for creativity, discovery, theatre, dance and physical activity. Plus a restaurant with an educational kitchen. Our principle is clear: **every child should be able to have a place at the Maison Relais.**

THE WËLLEBAU.
A PIECE OF MAMER'S HISTORY.

A historic building. Today, a modern brasserie. A place full of character in the heart of the village. A place for people to meet – **and an investment in a lively and attractive village centre.**

THE SCHOOL SWIMMING POOL. SAFE IN THE WATER.

A 25-metre pool, a learning pool, 6 lanes, a table-tennis hall and an Air-Tramp. Being able to swim is above all a matter of safety for our children. That is why we built our own school swimming pool on the Kinneksbond campus, so **that every child in our municipality can learn to swim.**

THE MUSIC SCHOOL. A SPACE FIR MUSIC. A STAGE FOR OUR TALENTS.

More than 1,000 registrations: music is thriving in Mamer. The new music school provides modern spaces for lessons and rehearsals, as well as a 125-seat auditorium where our pupils can showcase their talent on stage.

We will keep working. We will keep investing. In our schools. In our childcare facilities. In our quality of life. And in a vibrant village centre.

In both Capellen and Mamer, we will build a new school with an integrated Maison Relais.

WE KEEP PLANNING AHEAD. TO BE READY FOR TOMORROW.

In the centre of Mamer, 19 social housing units, an underground car park with 120 spaces, a social grocery store and an inclusive café where residents can meet will be created.

The assisted-living residence near Parc Brill has opened its doors.

Our sports facilities will be progressively modernised.

We are not standing still.

WE ARE PREPARING OUR MUNICIPALITY FOR THE FUTURE.

A TEAM FOR OUR MUNICIPALITY

Our CSV team on the municipal council brings together women and men with a wide range of backgrounds and experience. What unites us is our commitment to our three localities and our conviction that good local politics must remain close to the people.
